ABOUT US

See more. Less effort. More fun.

Fat Tire Bike Tours is delighted to welcome you to London! We offer you the best orientation, an informative and entertaining guide and simply a great time. After over a decade of guiding hundreds of thousands of travelers through European cities, we have become the bicycle tour benchmark. You may have even seen our company's rave reviews in publications such as *The London Times*, *The New York Times*, *The Wall Street Journal*, *The Washington Post*, *Time*, *Newsweek*, *Lonely Planet*, *Rick Steves'*, *Let's Go*, on the BBC, CNN and many more.

We offer you a wonderful pedal through the heart of Central London to see the city's most famous and magnificent sites. Our bicycle tours are not the least bit strenuous and all ages are welcome. By bicycle, we will cover more ground in a shorter amount of time than any other tour of the city. Come and have some healthy fun on a pollution free cruiser bike with the London bike tour specialists.

Safety is always a priority and that's why our bicycle tours follow bike lanes, cycle paths and the Royal Parks virtually the entire time. Bicycles, helmets and insurance are included for all guests.

Notes for All Tours

- We accept British Pounds in both cash and travellers cheques at the time of the tour. Credit cards (Visa or MasterCard) may be used via our website.

RIVER THAMES BIKE TOUR

Reservations required - please call or reserve online.

Explore breathtaking urban landscapes by cycling both banks of London's famous river.

With smaller groups, a different route and a focus on the people's history, this tour is the perfect complement to our Royal London Tour. Our guides offer legend and fact about a city that has united against plagues, fire and war, while developing into the cradle of modern civilization and commerce.

For lunch, we invite you to wander through the aromas of our oldest and largest food market (price not included), before cycling across Tower Bridge and embarking on a riverboat return cruise to Central London.

Although this tour is not considered difficult or strenuous, the cycling is more advanced than our Royal London Tour. All riders should be competent cyclists over 5 feet tall.
